

Pronunciation

B C D F G H J L M N P R S T V W Y
C = /k/ (cake) · H = /h/ or soft rasp · J = /dʒ/ (jello) · R = /r/ flap (American butter)
Vowels: A /ɑ/ (father) · E /ɛ/ (cellar) · I /i/ (creek) · O /ɔ/ (door) · U /u/ (flu)
E and O closed like Spanish are fine too.
Stress: penultimate syllable — iLlru

1. Pronouns and Possession

	singular	plural
1st	nim I	nima we
2nd	run you	runa you (pl)
3rd	hay he / she / they	haya they (pl)

Pronouns are often dropped when context is clear. Affirmative sentences default to nim, and questions to run, so you don't repeat them as much as in English.
Possessive: pronoun before the word · for nouns, use de
nim bo = my house
bo de miwo = dog's house

2. The Four Core Markers

a [subject] · i [verb] · e [direct object] · u [indirect object]
Mnemonics: Actor · Initiates · Engaged · Unto
a nim i anona e mocen u run
I give chocolate to you
More often (nim dropped in affirmative): i anona e mocen u run
You may drop markers when context is clear. a drops the easiest, and then e.
a...a means is / are:
a hay a yalen = he/she/they is tall · a bo a yamirli = the house is old
Word order is flexible because roles are marked: e mocen u run i anona is also common.

3. Describing Words

A modifier goes right before the word it describes.
mocen mouje = chocolate drink
pohem mocen mouje = hot chocolate drink

4. Two Core Prepositions

en = location / time ("in, on, at")
de = source / possession ("of, from")
a run en bo = you are at home
a hay i anifi de bo = he/she/they comes from the house

5. Coordination and Contrast

su	and / with	run i mo e moaria su mocen	you eat apple and chocolate
mai	but	hay i anvu, mai nim i doum	she goes, but I don't
dou	or	nim i mo e moaria dou mocen	I eat apple or chocolate
eta	so, therefore	a nim a tou, eta nim i bonfene	I'm tired, so I lie down

Starter Vocabulary

mo	eat / food	bo	house	beivu	car	leirih	tree
falen	child	fare	parent	faejor	woman	faejal	man
faibor	spouse	eofa	friend	elihei	person	anye	make, do
anvu	go	anona	give	anifou	need	ando	can
none	have	anidai	want	dami	exist	dairan	like
ilian	know	ilaluan	speak	elemi	live, life	yuba	good
ti	bad	yalen	tall/long	litam	day	limel	night
liyar	morning	noli	now	noi	here / this	ho noi	there / that

6. Negation

Add -um to the word you want to negate.
i dami a moaria = there is an apple
i damium a moaria = there is no apple

7. Questions and "what/that" Clauses

Raise intonation for yes/no questions. No structural change.
run i mo? = are you eating?
ce = what (question) · ca = that / which (connector)
ce en bo? = what's in the house?
Build more question words with ce + a domain word:

word	meaning
cei	who (what + person)
cedom	where (what + place)
celi	when (what + time)
ceora	why (what + reason)
cenon	how (what + way)

In statements, swap ce → ca: ceora → caora (because) · cedom → cadom (where) · etc.
run i ilianum cadom bo = you know-not where the house

8. Verb Stacking

To chain two verbs, repeat i before each one. No "to" needed.
run i dairan i anelem en bo = you like to stay home
hay i do i mo = he/she/they can eat
haya i dai i anvu = they want to go

9. Compounds

-a suffix bonds modifiers and noun into a single concept:

waa jasru	waa (sea) + jasru (bend)	= bay
lufua bei	lufua (air) + bei (vehicle)	= airplane
yalgaia mus	yalgaia (small) + mus (bug)	= ant
waa dom	waa (sea) + dom (land)	= island

Hyphenated forms fuse two words into one expression:

falen-li	falen (child) + li (time)	= childhood
tohpu-vanvu	tohpu (sad) + vanvu (walk)	= to trudge
bo-bortal	bo (house) + bortal (enter)	= to enter a house

If you're unsure which form to use, just use whatever feels right. Chances are, either works!

10. Vocabulary

Most Oravia words are formed as (sub)cluster + root. A cluster is the first sound(s) and signals the semantic domain; a root adds a second layer of meaning.
moalen (banana) = MO (food) + A (fruit subcluster) + LEN (root: long)
~260 (sub)clusters and roots were discovered using word-embeddings. Once you know the patterns, you can make educated guesses and learn words faster.
